LEARNING EXPERIENCE MANAGER | L&D STRATEGY | AI-ENABLED LEARNING | CURRICULUM DESIGN

Learning Experience Manager (L6) with 13+ years of experience designing and scaling performance-driven learning programs across enterprise, SaaS, and global customer operations. Proven track record building scalable learning ecosystems that improve performance, accelerate onboarding, and drive measurable business outcomes across blended learning, facilitator enablement, and AI-powered learning innovation.

CORE COMPETENCIES

Instructional Design • Learning Experience Design (LxD) • Curriculum Strategy • Blended Learning (ILT, VILT, eLearning) • Learning Program Management • Facilitator Enablement & Train-the-Trainer • AI-Enabled Learning Solutions • Scenario-Based Learning • Learning Analytics • Stakeholder Management • SOPs & Content Governance • Articulate 360 • Storyline • Rise • Captivate • Vyond • Camtasia

PROFESSIONAL EXPERIENCE

Amazon | Pune, India

Learning Experience Manager (L6) | Apr 2026 – Present

Following a team restructuring that moved the Learning Design function from Amazon Business to Amazon, promoted to Learning Experience Manager (L6) retaining full ownership of CS learning programs while expanding scope across program strategy, design leadership, and marketplace learning. Current focus: team-level design standards, governance frameworks, AI-enabled learning innovation, and expanded marketplace onboarding across MENA and other regions.

Amazon Business | Pune, India

Senior Instructional Designer | Learning Program Manager | Apr 2020 – Apr 2026

Led learning design and program strategy for Amazon Business Customer Service, building scalable learning ecosystems across global operations.

- Built and led the Continuous Learning Program from the ground up, contributing to an 18% YoY improvement in associate performance and a 30% increase in learner engagement.
- Led learning enablement for marketplace expansions in Mexico, Australia, and MENA, designing end-to-end onboarding programs to ensure launch readiness and operational alignment in new markets.
- Designed ILT ecosystems including facilitator guides, participant workbooks, scenario-based activities, and workshop materials used by global training delivery teams.

- Conducted Train-the-Trainer (T3) programs, coaching facilitators to improve delivery quality and consistency across regions.
- Built AI-powered learning tools including AskLX/LeXi (conversational learning assistant), LX Solution Advisor (AI-driven learning recommendation tool), and AI Roleplay Simulations for High-Value Actions (HVA) training.
- Established SOPs, governance standards, and content frameworks to improve scalability and production efficiency across global learning assets.

MindTickle | Pune, India

Lead Instructional Designer — Customer Enablement & Education | Jul 2014 – Mar 2020

Led customer education strategy for global enterprise clients, managing a team of 12 instructional designers and building learning programs that accelerated product adoption and customer success.

- Helped establish MindTickle University, a premium, paid customer education and certification program, designing the blended learning architecture, certification pathways, and content ecosystem.
- Designed and delivered blended learning programs for enterprise customers including AWS, Cisco, GSK, Nutanix, and Ola, supporting onboarding and advanced product adoption.
- Led monthly product webinars with Product Managers and developed a comprehensive library of enablement assets, walkthroughs, playbooks, assessments, and LMS modules.
- Reduced enterprise customer ramp-up time by 35% through structured certification pathways and hands-on enablement.

Upside Learning Solutions | Pune, India

Senior Instructional Designer | May 2012 – May 2014

- Led end-to-end instructional design projects including needs analysis, storyboarding, and content treatment for global clients.
- Translated complex topics into engaging digital learning experiences using narrative and visual strategies.
- Partnered with graphic designers and developers to ensure instructional integrity across final learning assets.

The Times of India, BCCL | Pune, India

Correspondent & Copy Editor | Jun 2008 – Apr 2012

- Built strong storytelling, editorial, and audience-focused communication skills, foundational to designing clear, engaging instructional content.
